

Installing VS Code in Windows

To install Vs Code in windows follow these simple steps:

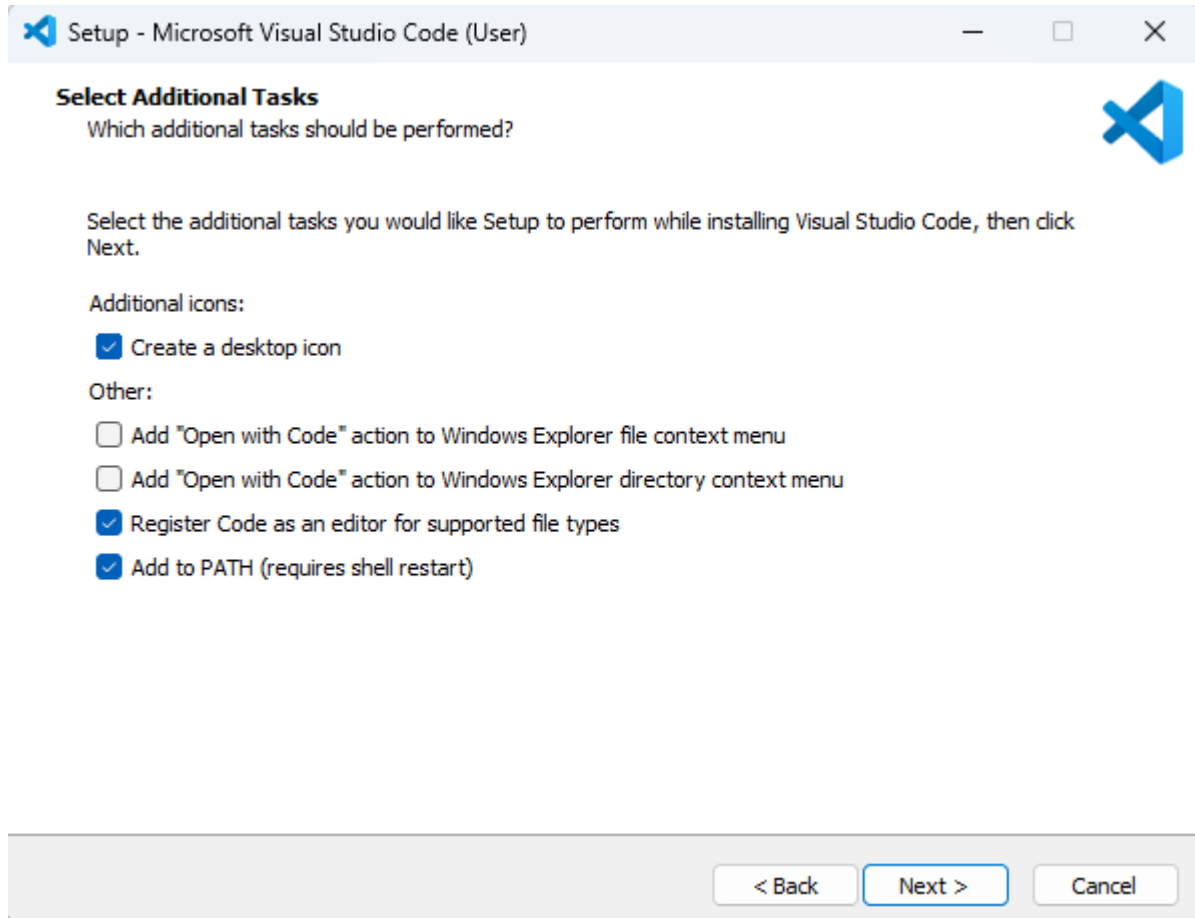

1. Open the browser, and Type “VS Code Download, “ and click on the first link it shows
or
Click on the following link <https://code.visualstudio.com/download>.
2. You will be redirected to this page.

3. Click on the download button for Windows. This will download the installer file for Visual Studio Code.
4. Once the download is complete, run the installer file by double-clicking.
5. You will see the setup wizard for Visual Studio Code. Select I accept the agreement and click on the “Next” button.

6. The next screen will show you the installation location for Visual Studio Code on your computer. You can change this location if you want or leave it as the default location. Click on the "Next" button.
7. The next screen will ask you to select the additional tasks you want to perform. You can check or uncheck the options as per your requirement. Check the "Create a desktop icon" to create a desktop shortcut. Click on the "Next" button.

The screenshot shows the 'Setup - Microsoft Visual Studio Code (User)' window. The title bar includes the Visual Studio Code icon and standard window controls. The main content area is titled 'Select Additional Tasks' and asks 'Which additional tasks should be performed?'. It provides instructions to select tasks and click 'Next'. Under 'Additional icons', the checkbox 'Create a desktop icon' is checked. Under 'Other:', the checkboxes 'Add "Open with Code" action to Windows Explorer file context menu' and 'Add "Open with Code" action to Windows Explorer directory context menu' are unchecked, while 'Register Code as an editor for supported file types' and 'Add to PATH (requires shell restart)' are checked. At the bottom right, there are three buttons: '< Back', 'Next >' (highlighted with a blue border), and 'Cancel'.

Setup - Microsoft Visual Studio Code (User)

Select Additional Tasks

Which additional tasks should be performed?

Select the additional tasks you would like Setup to perform while installing Visual Studio Code, then click Next.

Additional icons:

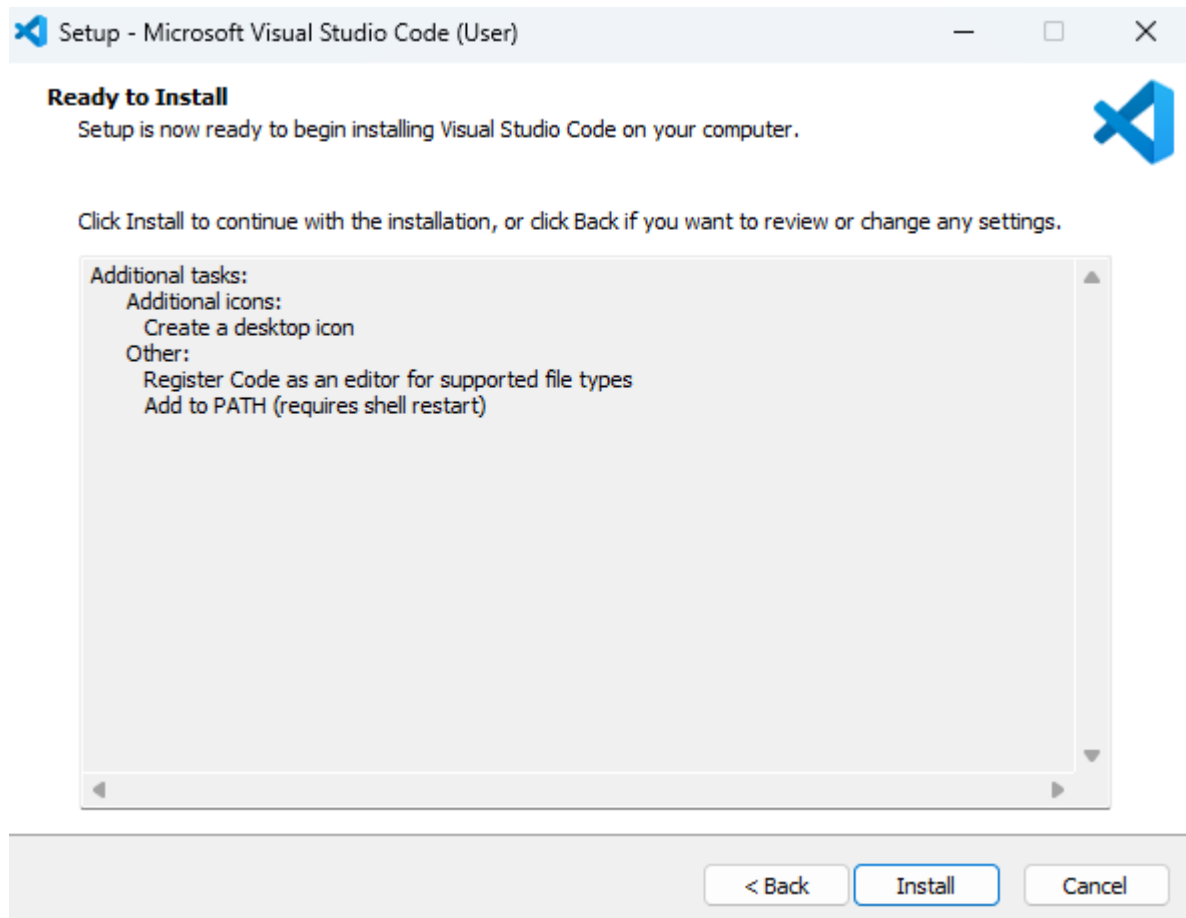

- ☒ Create a desktop icon

Other:
